

Achieve IT Certifications

(SOC 2, HIPAA, HITRUST, CMMC, AND MORE)

INCREASE YOUR REVENUE THROUGH CYBERSECURITY SERVICES

Achieve IT certifications such as SOC 2 cheaper, faster, and more efficiently through our ConnectWise Plugin

Realtime dashboard of compliance posture against multiple regulations including SOC 2, ISO 27001, PCI DSS, HIPAA, HITRUST, NIST 800-53, FedRAMP, and CMMC; all within ConnectWise

Gain competitive advantage and additional revenue by helping your clients get certified quicker and easier

Free up your internal resources to focus on other priorities

- Are your customers demanding to see your IT Certifications for regulations including SOC 2, ISO 27001 or HITRUST?
- Are you losing business to the competition because they have a better cybersecurity or compliance value proposition?
- Is your current SOC audit difficult, costly, and too time consuming?

CONTROLCASE, THE LEADING CYBERSECURITY AND COMPLIANCE AUDIT FIRM WOULD LIKE TO HELP.

Did you know! As a ConnectWise customer, you have access to efficiencies that will help you achieve compliance to regulations including SOC 2, ISO 27001, PCI DSS and HIPAA. The ControlCase Compliance Hub + ConnectWise Integration automates the evidence collection process and helps you get certified cheaper, faster, and more efficiently. Additionally, you can extend those compliance benefits and efficiencies to your customers – which allows you to be more competitive.

ADVANCED CAPABILITIES TO MANAGE YOUR COMPLIANCE PROGRAM WITHIN CONNECTWISE

As a ControlCase audit client, the ControlCase Compliance Hub® “tab” can be added to an organization’s client record within ConnectWise Manage. Security and compliance updates are then provided in real-time and include vital statistics such as risk rating and compliance reporting. ControlCase Compliance Hub® will also provide security milestone planning, regulatory compliance status, and an overall holistic view of the security and compliance journey undertaken by a company. Finally, Our “OneAudit™” solution provides graphical views of compliance progress across multiple regulations and enables you to perform a single audit and comply to multiple regulations.

STORE	MANAGE	MONITOR	SHARE
 <p>All your compliance data stays within ConnectWise Manage.</p>	 <p>Oversee your entire compliance program from ConnectWise Manage.</p>	 <p>Management level reporting available through built-in dashboards</p>	 <p>Demonstrate your compliance with on-time certification and gain competitive advantage.</p>

YOUR CUSTOMERS CAN INHERIT YOUR CONTROLS FOR THEIR AUDITS

As a ConnectWise customer certified by ControlCase, you can share your security and compliance efficiencies with your clients; thereby increasing your competitive advantage. Your clients can inherit at least 30% of your controls and cut their audit preparation time and cost by at least 50%.

BENEFITS TO OUR APPROACH			
<p>ADAPTABILITY</p> <p>This approach is easily adaptable.</p>	<p>SIMPLICITY</p> <p>This approach is repeatable.</p>	<p>TRANSPARENCY</p> <p>Increased accuracy and visibility through smart technology.</p>	<p>TRACKABILITY</p> <p>Stay organized with ControlCase Compliance Hub® within ConnectWise Manage.</p>
